Attachment 17

Inspector General's Recommendation Number 7f, page 71

Recommended DCI Action: Approve as modified

Inspector General's Statement

Recommended that:

DD/P consider the advisability of placing directly on the division chiefs the responsibility for all scheduling of language training for personnel in the division and for monitoring the timely carrying out of the language training thus scheduled.

DD/P Comment

Concur with modification. While this responsibility should lie primarily with the Chiefs of Division, there is also a responsibility to be exercised by the Clandestine Services Career Service panels, particularly in those cases where the requirements in a given language transcend any one division or where officers may be legitimately seeking training in a required language in areas other than those of their present assignment.
